## FREEDOM OF INFORMATION SCHEME

### **Freedom of Information Act 2000**

#### **Introduction**

This model publication scheme has been prepared and approved by the Information Commissioner. It has been adopted without modification by the Parish Council and does not require further approval, being valid until further notice.

The publication scheme commits the Parish Council to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below, where this information is held by the authority. Additional assistance is provided to the definition of these classes in sector-specific guidance manuals issued by the Information Commissioner.

#### **Freedom of Information Act (FOI)**

The Freedom of Information Act 2000 provides public access to information held by public authorities. It does this in two ways:

- Public authorities are obliged to publish certain information about their activities; and
- Members of the public are entitled to request information from public authorities.

The Act covers any recorded information that is held by a public authority in England, Wales, and Northern Ireland, and by UK-wide public authorities based in Scotland.

Record information includes printed documents, computer files, letters, emails, photographs, and sound or video recordings.

The Act does not give people access to their own personal data as this is covered under Data Protection Act 2018.

#### **The scheme commits an authority to: -**

- Proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below.
- Specify the information which is held by the authority and falls within the classifications below.
- Proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
- Produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
- Review and update on a regular basis the information the authority makes available under this scheme.

- Produce a schedule of any fees charged for access to information that is made proactively available.
- Make this publication scheme available to the public.
- Publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19. The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act

Where it is within the capability of a public authority, information will be provided on the Parish Council's website. Where it is impracticable to make information available on a website or when an individual does not wish to access the information through the website, the Parish Council will indicate how information can be obtained by other means and provide it by those means.

In exceptional circumstances, some information may be available only by viewing in person. Where this manner is specified, contact details will be provided. An appointment to view the information will be arranged within a reasonable timescale.

Information will be provided in the language in which it is held or in such other language that is legally required. Where the Parish Council is legally required to translate any information, it will do so.

**Charges may be made for Information published under this scheme.**

The purpose of this scheme is to make the maximum amount of information readily available at minimum inconvenience and cost to the public. Charges made by the Parish Council for routinely published material will be justified and transparent and kept to a minimum.

Charges may also be made for making datasets (or parts of datasets) that are relevant to copyright works available for re-use. These charges will be in accordance with the terms of the Re-use of Public Sector Information Regulations 2015, where they apply, or with regulations made under section 11B of the Freedom of Information Act, or with other statutory powers of the public authority.

If a charge is to be made, confirmation of the payment due will be given before the information is provided. Payment will be requested prior to the provision of the information.

### **Environmental Information Regulations (EIR)**

The Environmental Information Regulations 2004 provide public access to environmental information held by public authorities. The Regulations do this in two ways:

- Public authorities must make environmental information available proactively.
- Members of the public are entitled to request environmental information from public authorities.

The Regulations cover any recorded information held by public authorities in England, Wales, and Northern Ireland. Environmental information held by Scottish public authorities is covered by the Environmental Information (Scotland) Regulations 2004.

The Regulations apply only to the Environmental information held by public authorities. The Freedom of Information Act gives people access to most other types of information held by public authorities.

The Regulations and the Freedom of Information act do not give people access to their own personal data (information about themselves), such as their health records or credit reference files. Individuals have the right to access to information held about them under the Data Protection Act 2018.
